

## VFX ARRAYS

### Drone & U-CRANE VFX Arrays

**DRONE / RONIN ARRAY:** This custom built Ronin 2 array system houses 3x RED Komodo cameras and features 3x Laowa 15mm lenses, gen sync, time code and GPI matched. FOV: 15-22mm equivalent with 20% overlap. Remote pan and tilt with horizon lock. 15 minute flight times using RVRD Rapture HEX.

**U-CRANE / FLIGHT HEAD ARRAY:** Specialty built for our Filmotechnic Flight Head 7, this heavyweight and robust system can handle many large scale cameras and lenses. This system is fully customizable to your camera and VFX needs on any Mitchell system as well as our U-Crane arm cars.
