

F27 TELESCOPIC CRANES

Compact & Lightweight Telescopic Crane

The Filmotechnic F27 crane features an incredibly lightweight Carbon Fiber Arm with an amazing reach from 5' to 27'. The F27 has "WALL" electronic arc compensation to keep your shots straight as an arrow and is operated by a small crew. The crane is ultra-lightweight and also compact enough to fit into an elevator which makes it a perfect solution for hard to get to areas or places with weight restrictions.
