

VFX ARRAYS

Drone & U-CRANE VFX Arrays

DRONE / MOVI ARRAY: This custom built lightweight Movi Pro houses 3x RED Komodo cameras along with a choice of three different Laowa lenses. This system lives on a Movi Pro so it can be used on anything within the Movi ecosystem such as drone, Blackarm, handheld, E-Bike, electric RC car and more.

U-CRANE / FLIGHT HEAD ARRAY: Specialty built for our Filmotechnic Flight Head 7, this heavyweight and robust system can handle many large scale cameras and lenses. This system is fully customizable to your camera and VFX needs on any Mitchell system as well as our U-Crane arm cars.
