

# INSPIRE 3 DRONES

## The Inspire 3 Has Landed at RVRD

The Inspire 3 sets a new standard for aerial cinematography. Equipped with the Zenmuse X9-8K Air Gimbal Camera, it offers cinema-grade full-frame 8K imaging with impressive capabilities such as internal recording of 8K/25fps CinemaDNG video and 8K/75fps ProRes RAW video.

The I3 offers multiple intelligent modes, including precise flight planning with Waypoint Pro and single-object recognition and tracking with Spotlight Pro. It incorporates an advanced omnidirectional sensing system and an ultra-wide night-vision FPV lens for enhanced safety and situational awareness. The O3 Pro Transmission provides extended range of up to 15km and low latency for reliable live feeds. Integration into DJI's professional ecosystem ensures compatibility with various accessories and control devices.

### SPECIFICATIONS

- Light Weight Carbon Fiber
- Max Weight – 9.5lbs
- Max Speed – 94km/h
- Max Flight Time: 28 min
- Weather Resistant: Yes

### GIMBAL OPTIONS

- In-house @ Revered Cinema
- DJI X9-8K Air Gimbal and Lenses (24/35/50/75)
- \* gimbals kits include custom accessories
