

MINI FPV DRONES

FPV Drones For Every Job

RVRD has you covered on drones of all sizes. Not only do we have larger cinema drones, we also have every smaller drone a production would need (full list at www.rvrd.com/gear).

- Micro drones with propeller guards for tight spaces and close action to cast for safety.
- Small FPV drones using the latest GoPro for ultra fast action and high risk scenarios.
- Ultra Lightweight Mavic Mini drones for Tech Scouts without needing any approval or permitting since they are so small they are not governed by any jurisdiction.
